Al Shoala Building, Deira Dubai, UAE

SUMMARY

Highly skilled and dedicated Full Stack Developer with extensive experience in both front-end and back-end technologies. Proficient in creating dynamic, responsive websites and applications with a strong focus on user experience and performance. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Committed to continuous learning and staying updated with industry trends to implement the best practices in development.

EDUCATION

Jaipur National University, India

Bachelor of Computer Application
2021-2024

SKILLS

- Proficient in front-end development using React, with a focus on creating dynamic and responsive user interfaces
- Experienced in back-end development using Node.js and ExpressJS for building scalable and efficient server-side applications
- Skilled in database management with MongoDB, including designing schemas and optimizing queries
- Exceptional communication and detail-oriented, capable of handling multiple tasks and collaborating effectively within cross-functional teams

CERTIFICATIONS

- MERN STACK Professional Certification

PNY Trainings, Lahore

- Object Oriented Programming in JavaScript

EC-Council

PROFESSIONAL EXPERIENCE

Full Stack Developer

Ezitech Institute | 2024 - Present

- Developed and maintained full stack web applications using React, Node.js, ExpressJS, and MongoDB.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Optimized application performance and improved user experience.
- Ensured code quality and consistency by implementing best practices and code reviews.
- Integrated third-party APIs to enhance application functionality.
- Conducted unit and integration testing to ensure application reliability and performance.

Front-End Developer

Upwork | 2022 - 2024

- Designed and developed responsive and interactive user interfaces using React.
- Translated UI/UX design wireframes into high-quality code.
- Implemented client-side logic to interact with backend APIs.
- Ensured cross-browser compatibility and optimized performance.
- Collaborated with designers and back-end developers to deliver complete solutions.
- Utilized version control systems like Git for efficient workflow management.
- Conducted code reviews and contributed to improving the development process.
